In 2009, our family made a personal decision to move our primary residence from Plano, Texas to Lake Kiowa, Texas. We had spent 4 years as weekenders enjoying all the amenities that Lake Kiowa has to offer. Once we decided that Lake Kiowa is a community where we would like to spend more time, we met with several builders at Lake Kiowa regarding the construction of a new home.

After a lengthy round of discussions with the local builders, we were totally sold on Bluebonnet Homes largely because of the exceptional home building experience, expertise, and their personal interest in the construction of our new home. It sure put us at ease to know we had Bluebonnet Homes working with us in the construction of our new home.

We contracted with Bluebonnet Homes to tear down our old lakehouse and build our new “retirement home” at Lake Kiowa. It was a wonderful experience as we saw our new home come together. Randy Howell and his team were there for us at every step. Our experience in working with Bluebonnet Homes was very positive and we owe a tremendous amount of gratitude to Bluebonnet Homes for their commitment to seeing us through the building process.

In looking back, we could not be happier with choosing Bluebonnet Homes for the design and construction of our home. There are so many ways that Bluebonnet Homes provided us with the advice, expertise, and support and also at just the right time and in the right way.

Bluebonnet Homes provided us with the professional support, experience and expertise that allowed us to build our dream home. We are totally convinced that we made the right decision in selecting Bluebonnet Homes in the construction of our new home. If we had to do it over again, there is absolutely no question that we would choose Bluebonnet Homes once again.

Thank you very much.
